

JON BUOY HORSESHOE GLO LITE

OCEAN SAFETY®

Ocean Safety,
Saxon Wharf,
Lower York Street,
Southampton,
SO14 5QF, UK.

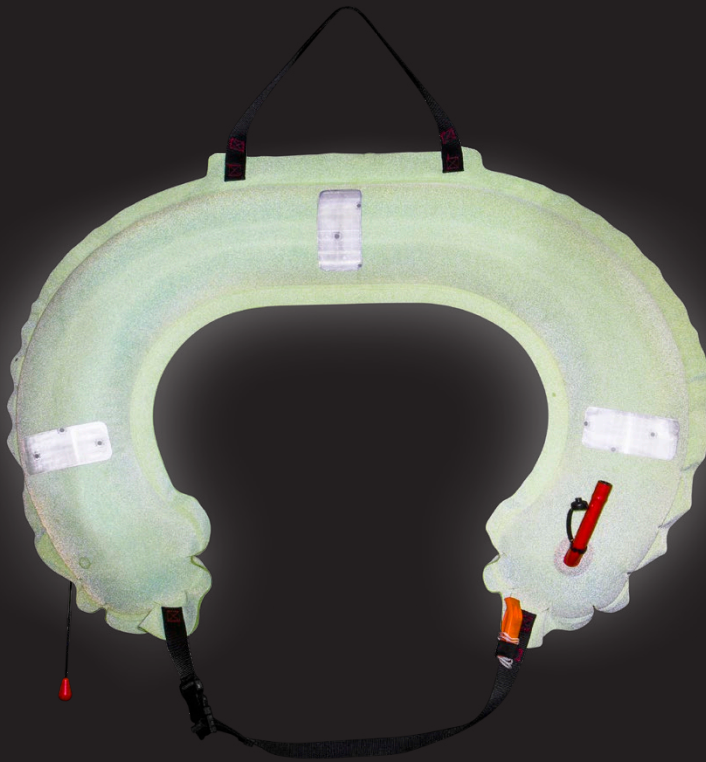

www.oceansafety.com

The Jon Buoy Inflatable Horseshoe is a direct replacement for the traditional horseshoe lifebuoys. Available in single or double versions, these compact units come fitted with an oral tube, drogue, retro-reflective tape, and an automatic inflation system as standard. An automatic light is an optional extra that can be fitted to the horseshoe. Comes with option of hard case or soft case.

The Horseshoe hard case, offers a more ergonomic and streamline design for improved deployment and manoeuvrability.

New for 2020, the Jon Buoy range will be further extended to incorporate the inclusion of Glo Lite technology.

Glo Lite uses innovative retro-reflective technology that significantly enhances the visibility of the hi-vis fabric, making it highly reflective and increases perception during dark conditions, thus aiding location, leading to reduced casualty time before recovery for a more positive rescue outcome.

KEY FEATURES

- Glo Lite fabric technology
- Automatic inflation
- Retro-reflective tape
- Easy to deploy
- Clear printed instructions
- Repackable
- Automatic light optional

CASE FEATURES

- Moulded handle
- Universal bracket
- Fits rails up to 30mm in diameter
