

# JON BUOY HORSESHOE GLO LITE

**OCEAN SAFETY®**

Ocean Safety,  
Saxon Wharf,  
Lower York Street,  
Southampton,  
SO14 5QF, UK.

[www.oceansafety.com](http://www.oceansafety.com)

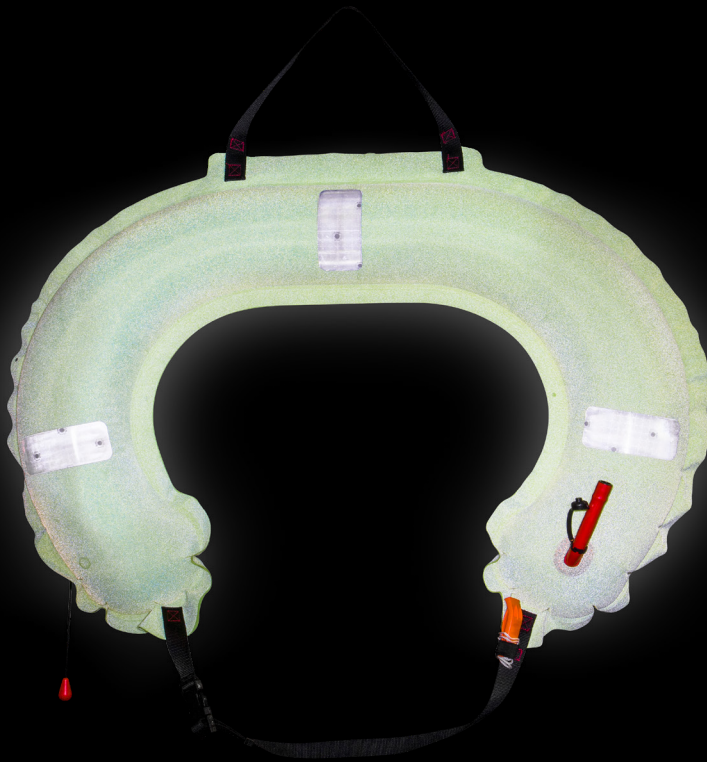

The Jon Buoy Inflatable Horseshoe is a direct replacement for the traditional horseshoe lifebuoys. The compact unit is fitted with an oral tube, drogue, retro-reflective tape, and an automatic inflation system as standard. An automatic Aquaspec AQ40 light is an optional extra that can be fitted to the horseshoe.

The horseshoe case, offers a more ergonomic and streamline design for improved deployment and maneuverability.

The Jon Buoy range also incorporates innovative Glo Lite technology.

Glo Lite uses retro-reflective technology that significantly enhances the visibility of the hi-vis fabric, making it highly reflective and increases perception during dark conditions, thus aiding location, leading to reduced casualty time before recovery for a more positive rescue outcome.

Option of hard or soft case.

## KEY FEATURES
