SeaMaster Liferaft ISO 9650-1 TYPE-1

The new ISO standard for liferafts is now in force for all liferaft manufacturers to comply to. Seago have been working behind the scenes to bring our current range of liferafts up to the new and latest requirements.

The SeaMaster Plus ISO 9650-1 TYPE 1 is the latest version of our liferafts for commercial and racing use complying to the newest ISO standard. This new version of the liferaft has had a new inflatable boarding step as used in our SOLAS range of liferafts and comes packed in a new design valise or slimline canister with new polished finish. The new larger safety pack for the SeaMaster Plus comes standard with water and TPA's. Made from tough butyl rubber and rip-stop Nylon the SeaMaster is the best in it's class.

Canister

PART NUMBER	MODEL	CAPACITY	DIMENSIONS LxWxH (mm)	WEIGHT (kg)	EAN NUMBER
